Re: dEi Committee Report

The dEi committee has engaged with Solfire Consulting on several learning sessions since the course of our last report in June. A core component continues to center building trust and community among the group, through a thoughtful and intentional process. The feedback from committee members has been positive. The July learning session continued a deep-dive on code switching, while the September session focused on the effects of white dominant culture.

Through the tactical meetings, the committee and staff have begun revisions on the committee's charter, and are working with the Governance Committee to evaluate a dEi centered learning expectation for board members.
